Company profile in the Career Center

1 year term until August 31, 2025

Publish unlimited job ads and promote events

Access to the CVs of interested students*

With the company profile you are even better visible with our students and graduates. Present yourself as an employer with text, images, videos and promote your own recruiting events. Around 2,000 students and recent graduates use the job platform.

Our tips:

- Describe your jobs in a way that the students can get a very concrete idea of it. For example, what can they achieve in this position in the company? What is the day-to-day work like? Is there a career biography of a person who is currently doing this job?
- Events: Students have told us that they would like to gain practical insights into jobs. For example, organize trial days or hackathons and promote them via your company profile in our Career Center.
